

New Jersey's Do Not Call list legislation is a major step forward in improving quality of life and protecting the privacy of our homes. Please do not do anything that would weaken the protection we as New Jerseyans get from this legislation. If anything, the Do Not Call lists should be expanded to enable us to avoid extremely annoying calls for donations from charitable or quasi-charitable organizations. Again, please protect and support our right to privacy and to be undisturbed in our own homes. Thank you.
